

SPOTLIGHT *Alma Rzewnicki*

What are the chances of having 9 grandchildren...all BOYS! Not as farfetched as you might imagine. Just ask Alma Rzewnicki! Mother to 3 girls and 2 boys (4 remaining), Alma's children and grandkids reside in Kansas City, New Jersey and Central Florida.

Widowed for many years, Alma moved here in 1996 and lives in the Lakeside community in Heathrow. As a civil engineer-project manager for a major construction company, her husband Ed and she (with kids in tow) literally saw the USA in their Chevrolet, as the saying went. She moved 18 times in a 25 year span, living in Minot, ND, Montana, Philadelphia and Omaha to name a few.

She and Ed met in California, her home state. The baby of the family with two older brothers, Alma was born in Marysville, just north of Sacramento. She was good at Math and has always been somewhat of an athlete, playing on the baseball and basketball teams in school.

Alma remains very active. She plays doubles on a tennis team once a week and golf twice a week. She also loves to read and is in two book clubs. Her favorite travel spot has been to the south of France. A couple years back, she and some of her girlfriends traveled around southern California to LA and Napa and she and her family pick a new place to vacation every year-all 14 of them! Last year they all went to Breckenridge, Co.

Alma Rzewnicki (pronounced Rezniki) joined the Heathrow Women's Club in 2012 and has volunteered at the Boys and Girls club through Charitable Endeavors. Traveling as she has, Alma is a well-rounded and easy-going soul, with a light-hearted attitude and an appreciation for life. She believes in taking all things in stride. "Live each day to the fullest. You never know when it may be your last."
